NB: The Office Home & Student licence is for residential use only and excludes any use in business/charity work/or volunteering.

TERMS

Please note that we do not carry stock; items are ordered specifically for you. Thus once you have ordered, we cannot accept a cancellation. Therefore please ensure that the goods will meet your requirements: feel free to discuss this with us, as necessary.

Residential Customers

Please send a confirmation of your order by post, with a cheque for your deposit as detailed below. After receipt of your confirmation and cheque your item(s) will be ordered and you should expect your order within 7-10 working days, possibly sooner. We neither seek nor accept confirmed orders verbally whilst in your home.

Business Clients

Please provide, or send in a purchase order by post, with a cheque for your deposit as detailed below. After receipt of your confirmation your item(s) will be ordered and you should expect your order within 7-10 working days, possibly sooner.

All Customers

Your written order should be accompanied by a cheque made payable to "KA Spencer" for 25% of the value of the hardware items of your order. You may round the amount down to the nearest £10.00 if you wish.

Delivery

Delivery is usually within 7-10 days, subject to availability. All hardware and laptops are subject to a £13.00 delivery charge. All software is subject to a £9.00 delivery charge.

VAT, Stock and Prices

Please note that no goods or services are liable to VAT, so the prices given here are what you may expect to pay, subject always to availability, delivery charges, and to any price change from the distributors.

What is Included in the Cost

We will deliver the items to your property, at an agreed date and time, in normal office hours, Monday-Friday, provided there is sufficient time to complete the work by 5:00pm.

We will set up PCs, monitors and printers supplied by us as part of your purchase, and provide a brief familiarisation of switching on, off, and basic operation of the equipment.

Additional Services

We will, if required, connect your new PC into your network, and thence to the Internet, set up your email client, and migrate your existing data, documents, images, spreadsheets, videos, music, and email to your new PC from an existing PC, but this will be chargeable at our hourly rates. Please note that this can be a lengthy process.

Warranties

All new hardware and systems are supplied with a (hardware only) warranty from the manufacturers. This may be one, two or three years, and is almost always supplied by the manufacturer of the equipment, although we are happy to advise on any issues or failures, within or outwith the warranty, if required. Manufacturers warranties may be "on-site", or "return to base". Used hardware may be supplied with a three-month warranty at our discretion and you will be informed of the arrangement. Such warranties do not cover any labour, transport or carrier charges.
